

Week 12 - Money

Talk about the way that you thought about money before you became a disciple of Jesus. How has that changed now that you are his follower?

1 Timothy 6:6-19

Does scripture teach that money itself is evil?

What does it teach?

Discuss all the points you see in this passage.

Studies show that the majority of Americans are carrying significant amount of credit card debt and are paying very high rates of interest. Does this situation apply to you and if it does, what is your thinking about it? How does this relate to our previous study of discipline? Is this an area where you need to get help?

Generosity and giving is another key principle in regard to money.

2 Corinthians 8:1-7

Under the old covenant, found in the Old Testament, God's people were required to give a 10% offering (a tithe) to the Lord. Under the new covenant, which is a much more gracious covenant, we find no such requirement. But from this passage what seems to be the operating principle we should follow? Discuss how this applies to your current situation.

Pray together.
